Downloading JUMS 3.1.1 Update

The following directions are instructions for downloading JUMS 3.1.1. You must have JUMS 3.0 installed to perform this update. Once the download is complete, please review "What's New in Version 3.1" in the Help file for details of incorporated changes.

1.	Download JUMS 3.1.1 Update
1	**Start** your internet browser.
2	**If downloading from the Web Portal,** go to www.usarmyjrotc.com. Logon to the JROTC Portal. Go to *Instructor Tools*, click *Support Links*, then click *JUMS.* Continue with step 4 below.
3	**If downloading from the JROTC Web Site,** go to www.rotc.monroe.army.mil/jrotc. Go to the *Operations Page* and click *JUMS,* then *JUMS Patches.*
4	**Right click** on "*JUMS311.exe* and choose *Save Target As*. Save this file to your local hard drive. If necessary, move the file from your computer to the computer running JUMS 3.0.
5	**Go to** the location where you saved JUMS311.exe.
6	**Double click** *JUMS311.exe* and Unzip the files to your JUMS 3.0 program INBOX folder. The default location for the INBOX folder is c:\Program Files\Unit Management System\INBOX. (Go to My Computer, open the C drive, open the Program Files folder, open the Unit Management Systems folder, and open the INBOX folder).
7	**Reboot** your computer to insure no users are still connected to JUMS via computer memory.
8	**Go to** your JUMS 3.0 program INBOX folder. (The default location for the INBOX folder is c:\Program Files\Unit Management System\INBOX).
9	**Double click** *UpdateJUMS.exe* (happy face icon) located in the INBOX folder. NOTE: This file must be located in the INBOX folder in order to update your JUMS program.
10	**Follow** the directions on the screen to complete the update to JUMS 3.1.1.
11	**Proceed to next table.**

2.	Verify Installation of JUMS 3.1.1 Upgrade
1	**Log into** your JUMS program.
2	**Click** the Main Window Help menu and select "*About JUMS*".

3	**Verify** the following:
	    a. Program Version = 3.1.1
	    b. Patch Number = 7
